

College of Nursing-Miami-Kendall

Debbie Diamond MSN, APRN, FNP-BC

I received my diploma in nursing from the Jackson Memorial Hospital School of Nursing in 1982. I received a Bachelor of Science in Nursing from Florida International University in 1999. I hold a Master of Science in Nursing from Barry University (specializing in nursing administration) and also completed a post-masters Family Nurse Practitioner program through Barry University.

I worked in pediatrics for most of my career, most of those years at Baptist Children's Hospital. I joined the Baptist Scholars Department as nursing faculty in 2007.

I teach pediatrics, leadership, business, health assessment, genetics and many other courses, as needed.

I am certified by the ANCC as a Family Nurse Practitioner and practice in a clinic part-time. Having the opportunity to teach as well as practice in the role of ARNP allows me to have the best of both worlds.

I really enjoy teaching the professionalism/leadership/business courses as they are the ones most overlooked, yet play a significant role in a nurse's professional development.
